

Learning to LEED: Day 2
Innovation & Design Process Quiz

1. Number of Prerequisites in the Innovation & Design Process category: _____
Number of Credits in the Innovation & Design Process category: _____
Number of Points in the Innovation & Design Process category: _____

2. Which of the following are requirements of IDc1, Innovation in Design? (Choose 4.)
 - a. Proposed intent
 - b. Proposed standard(s)
 - c. Proposed requirements
 - d. Proposed submittals
 - e. Proposed design approach
 - f. Results of credit implementation

3. Exemplary performance credits are awarded in this category for doubling or achieving the next incremental percentage of eligible LEED credits. (T / F)

ID credits awarded for one project are automatically granted for future projects that apply under the same or similar circumstances. (T / F)

4. In order to achieve IDc2, LEED Accredited Professional, at least how many members of the project team must be a LEED AP? (Choose 1.)
 - a. 1
 - b. 2
 - c. 3
 - d. 4

5. The U.S. Green Building Council recently announced that it will offer an IDc1 point for projects that implement which certification process? (Choose 1.)
 - a. Biomimicry
 - b. Cradle to Cradle
 - c. Green Globes
 - d. International Organization for Standardization
 - e. GreenSpec

6. Which category offers the most opportunities for exemplary performance credits under IDc1? (Choose 1.)
 - a. Sustainable Sites
 - b. Energy & Atmosphere
 - c. Materials & Resources
 - d. Indoor Environmental Quality

7. According to Wec3, Water Use Reduction, which of the following steps could contribute to ID points for exemplary performance? (Choose 2.)
- a. Reduce overall water use by 30%
 - b. Reduce overall water use by 40%
 - c. Zero irrigation on site
 - d. Eliminate potable water use for sewage conveyance
 - e. Provide water efficient dishwashers and clothes-washers
8. What is the cost to take the LEED Accredited Professional exam? (Choose 1.)
- a. \$100 to members, \$200 to non-members
 - b. \$300 to members, \$350 to non-members
 - c. \$250 to members, \$350 to non-members
 - d. \$250 to members, \$300 to non-members
9. How many Credit Interpretation Requests are included without a fee when registering a project with the USGBC? (Choose 1.)
- a. 0
 - b. 1
 - c. 2
 - d. 3
10. Which of the following statements correctly describe how to achieve an innovation credit for a category not addressed by LEED? (Choose 3.)
- a. The innovation should utilize a standard not referenced by another LEED credit
 - b. The innovation should address the entire project
 - c. The innovation must include an education component
 - d. The formula should not be unique to the project for which it was developed
 - e. The project should demonstrate quantitative environmental/performance benefits
11. What is the cost to register a LEED-NC project for USGBC members? _____
- What is the cost to register a LEED-NC project for non-members? _____
12. Salvaging 75% of interior non-structural elements would earn one ID credit in addition to MRc1.3. (T / F)
- A project that includes regionally harvested and manufactured materials for 65% of the total materials cost would earn one ID credit in addition to MRc5.1-2. (T / F)
- Ensuring that 25% of the total materials cost is composed of recycled materials would earn one ID credit in addition to MRc4.1-2. (T / F)

13. During which stage may a project team appeal a LEED rating? (Choose 1.)
- a. Registration
 - b. Certification Review
 - c. Technical Review
 - d. Certification Award
14. Which LEED product would apply to construction project that completely rehabilitates a building such that only the structure is retained? (Choose 1.)
- a. LEED-NC
 - b. LEED-EB
 - c. LEED-CS
 - d. LEED-CI
15. Which of the following are required submittals to receive IDc2, LEED Accredited Professional? (Choose 3.)
- a. LEED AP's name and company
 - b. LEED AP certificate
 - c. Brief resume for the LEED AP explaining qualifications
 - d. List of credits for which the LEED AP assisted in gathering information
 - e. Description of the LEED AP's role
16. Which of the two credits in the Innovation & Design Process can only be submitted during the construction phase?
-
17. A vegetated roof system covering the entire roof area for a project might contribute an ID point for exemplary performance under which LEED point? (Choose 1.)
- a. SSc5.2
 - b. SSc7.2
 - c. WEc1.1
 - d. EAc1
18. Exam tracks are now offered for which of the following LEED products? (Choose 3.)
- a. LEED-NC
 - b. LEED-EB
 - c. LEED-CS
 - d. LEED-CI
 - e. LEED-H
 - f. LEED-ND
19. Upon notification of LEED certification, how many days does the project team have to accept or appeal the award? _____
- How much does it cost to appeal an individual credit during this stage? _____

20. What are the primary functions of the LEED AP, according to IDc2? (Choose 3.)
- a. Handle every aspect of the LEED process
 - b. Educate team members about green building design and construction
 - c. Streamline the application and certification process
 - d. Support and encourage design integration
 - e. Be present from the beginning stages of project design

Learning to LEED: Day 2
Innovation & Design Process Quiz

Answers

1. 0; 2; 5
2. a, c, d, e
3. T; F
4. a
5. b
6. c
7. b, e
8. c
9. a
10. b, d, e
11. \$450; \$600
12. F; T; F
13. d
14. a
15. a, b, e
16. IDc2, LEED Accredited Professional
17. b
18. a, b, d
19. 25 days; \$500
20. b, c, d
